Education

- PRESENT UNIVERSITY OF PENNSYLVANIA, WHARTON SCHOOL OF BUSINESS
PhD in Finance, May 2022 (Expected)
- 2013 EMORY UNIVERSITY, GOIZUETA SCHOOL OF BUSINESS
Bachelor of Business Administration, Finance Concentration – Finance, May 2013

Fields of Interest

- Asset Pricing
- Household Finance
- Political Economy

Publications

1. **Relaxing household liquidity constraints through social security**
with Sylvain Catherine and Natasha Sarin
Journal of Public Economics (2020)
Press: MarketWatch, MarketWatch, MarketWatch
2. **Mutual Funds: Skill and Performance**
with Jonathan Berk and Jules van Binsbergen
Journal of Portfolio Management (2020)
3. **International Portfolio Investment Holdings of Long-term Securities in the Enhanced Financial Accounts**
with Elizabeth Holmquist and Youngsuk Yook
FEDS Note (2016)

Working Papers

1. Democratization, Inequality, and Risk Premia

Periods of democratization exhibit economically large spikes in risk premia. Using a panel data set covering 85 countries over 200 years, I show that several proxies for risk premia are significantly elevated during periods of democratization, despite little to no effect on aggregate consumption and dividends. This result is then explained in an asset pricing model in which wealthy asset market participants must redistribute their income if democracy consolidates. Finally, using a quasi-natural experiment coming from a shift in Catholic church doctrine in support of democracy in 1963, I show

that average returns were significantly higher for treated majority Catholic autocracies relative to control countries in a triple difference-in-differences framework. These results are key to understanding how political institutions and the distribution of economic and political power influence asset returns.

2. **Social Security and Trends in Wealth Inequality**

with Sylvain Catherine and Natasha Sarin

Best Paper: Red Rock Finance Conference

Recent influential work finds large increases in inequality in the U.S. based on measures of wealth concentration that notably exclude the value of social insurance programs. This paper revisits this conclusion by incorporating Social Security retirement benefits into measures of wealth inequality. We find that top wealth shares have not increased in the last three decades when Social Security is properly accounted for. This finding is robust to assumptions about how taxes and benefits may change in response to system financing concerns. When discounted at the risk-free rate, real Social Security wealth increased substantially from \$4.8 trillion in 1989 to \$41.3 trillion in 2016. When we adjust the discount rate for long-run macroeconomic risk, this increase remains sizable, growing from over \$3.9 trillion in 1989 to \$33.9 trillion in 2016. Consequently, by 2016, Social Security wealth represents 57% of the wealth of the bottom 90% of the wealth distribution.

3. **Sovereign default and the decline in interest rates**

with James Paron and Jessica Wachter

Sovereign debt yields have declined dramatically over the last half-century. Standard explanations for this decline, including aging populations and increases in asset demand from abroad, encounter difficulties when confronted with the full range of evidence across asset classes. We propose instead that the decline in inflation and default risk caused falling interest rates, a phenomenon that is not unique to our century. We show that a model with investment, inventory storage, and sovereign default captures the decline in interest rates, the stability of equity valuation ratios, and the recent reduction in investment and output growth corresponding to the zero lower bound.

Teaching Experience

Teaching Assistant:

2020 PhD Asset Pricing (Prof. Nikolai Roussanov)

2019 PhD Asset Pricing (Prof. Nikolai Roussanov), Investment Management (Prof. Robert Stambaugh), Investment Management (Prof. Donald Keim), Financial Technology (Prof. Shimon Kogan)

2018 Investment Management (Prof. Don Keim), Policy Decisions by Central Banks (Prof. Zvi Eckstein)

Conference Presentations

2019 Econometric Society – European Winter Meeting

2020 NBER Summer Institute (Capital Markets), Econometric Society – World Congress (Scheduled), European Finance Association (Poster Session)

2021 MFA (Scheduled)

Service

Reviewer for the *American Economic Review: Insights, Review of Finance*

Coding and Software Skills

Proficient Python, R, Stata, Matlab, LaTeX, LyX, Microsoft Excel

Basic SAS, SQL

Honors and Awards

2019 Rodney White Center Grant, Jacobs Levy Grant

Previous Employment/Research Experience

2015-2017 Research Assistant, Federal Reserve Board of Governors, Flow of Funds

2014-2015 Research Assistant to Professor Francis X. Diebold

2013-2014 Operations Analyst, YP

Other Education

2015-2016 Non-Degree Student, George Washington University

2014-2015 Post-Baccalaureate Certificate in Mathematical Economics, University of Pennsylvania

Interests

Sports Basketball, Flag Football, and Tennis

Basketball Tuck Inter-MBA Tournament Champion (2018, 2019 - Runner-Up), Harvard Inter-MBA Tournament (2019 - Runner-Up), UPenn Inter-Graduate School Champions (2018, 2019), Graduate Division Intramural Champion (2018, 2019 - Runner-Up)

Football Graduate Division Intramural Champion (2015)

Fantasy Fantasy Football League Champion (2006, 2014, 2019) – League Champion Trophy named “The Maxwell Jacobson Miller Achievement Award for Fantasy Football Excellence”

Music Guitar, Ukulele, and Piano
